

## Sibeal Sauvin Residential Coordinator

Sibeal has lived in the Monadnock region for over 30 years, being magnetically drawn back here after brief forays to MT, NC, and FL.

She has a deep affection for all creatures, especially horses, cats, and the small creeping or flying ones. Humans are pretty cool, too.

She is completing her B.S. in Psychology in December of 2023 at UNH. Originally planning to follow a track leading to being a licensed mental health counselor, she took a hard left towards peer support and has found her tribe.

Sibeal recently celebrated four years of sovereignty, and is honored to be with others who value living a self directed path.
