

Stacy Wilbur  
Program Director

Stacy moved to the Keene area 24 years ago from the seacoast to start a family. She has three amazing young men 21,20 and 16 and a wonderful supportive husband. She has worked for the Keene family YMCA for the past 21 years as a fitness professional. In that time she has also worked in the nursing profession which is really where she discovered how much she loves working with people and how important it is to her to try to keep the community healthy and happy , and recognizing that being healthy and happy may look different for each individual . She strongly believes in progress, not perfection. In her spare time I love to be in the river panning for gold and camping with her family and friends.
